

◇ **1. Name: S Mohammad Rafi**

19 Years in IAF (Aero Engines) | Now Building in Tech & Digital | Multi-passionate Entrepreneur

◇ **2. About:**

I'm S Mohammad Rafi, a veteran with 19 years of hands-on experience in aircraft engine maintenance and mechanical systems in the Indian Air Force (2003–2022). Post-retirement, I've been driven by a passion to explore entrepreneurship across various industries—from jewellery and digital marketing to robotics and SaaS.

My journey is defined by curiosity, adaptability, and a love for creating and modifying systems—be it designing dual-sim phones before they existed, or upgrading power adapters to meet modern tech needs. I'm not limited to one field; my interests span electronics, mechanics, stock/forex trading, digital marketing, fitness, and fashion.

I currently run *Quantum Drive International* and *MyCityBiz*, and I'm actively learning digital marketing through top Indian mentors while continuing to explore new ideas and business models.

If you're looking for someone who learns fast, adapts even faster, and is ready to build and solve real-world problems—I'm just getting started.

◇ **3. Experience:**

Indian Air Force

Aircraft Engine Technician | 2003 – 2022

- Maintained and repaired aero engines for a variety of IAF aircrafts
- Trained in advanced mechanical systems and tools under high-pressure environments
- Contributed to operational readiness, safety, and efficiency of flight operations
- Awarded medals in IAF Shooting Championships (6 Silver, 1 Gold)

Jewellery Business Owner

Independent Retailer | 2023 – 2024

- Founded and operated a jewellery business focused on gold, diamond, and silver
- Managed sourcing, sales, customer relations, and marketing
- Gained firsthand insights into B2C sales, margins, and customer behavior

Quantum Drive International
